Four Months Old Today

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A simple four-month birthday: a morning walk, showing off his sit, a puppy-safe frozen treat, a new toy and a tired family snuggle.

TIMELINE

0-5s	Birthday walk
5-10s	Showing off sit
10-15s	Frozen treat
15-20s	New toy
20-25s	Family snuggle

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real 4-month-old male liver-and-tan German Shepherd puppy, growing lanky, chocolate-brown saddle, tan legs and face, brown nose, amber eyes, big ears starting to stand, wearing a light blue collar. 0-5s (Birthday walk): Quiet residential sidewalk on a cool clear morning, natural daylight, trimmed hedges and parked cars. The puppy walks on a light blue leash beside the owner's sneakers, a bit gangly, ears half up, sniffing a lamppost then trotting to catch up. Sound: birds, distant traffic, owner says "happy four months". 5-10s (Showing off sit): Kitchen in the late morning, daylight through the window, light wooden floor. The owner's hand holds a small treat up, and the puppy sits neatly on cue, his long legs folding, ears tall and wobbly. He gets the treat and licks his lips. Sound: owner says "sit" then "good boy", crunch. 10-15s (Frozen treat): Back patio at midday, bright overcast daylight, grey pavers. The owner's hand sets down a small frozen cup of plain dog-safe yogurt and mashed banana. The puppy lies down and licks it eagerly, holding the cup with his paws. His tail sweeps the pavers. Sound: fast licking, birds, owner laughs "slow down". 15-20s (New toy): Living room in the afternoon, sunlight through the window, light grey rug. The owner's hand pulls a new plush fox toy out of a paper gift bag. The puppy grabs it gently, shakes it with his head and prances around the rug with it. Sound: paper bag rustling, squeaker, owner cheering. 20-25s (Family snuggle): Living room in the early evening, warm lamp light, a beige couch. The puppy lies on the rug with his head on the owner's lap and a family member's hand stroking his side, the plush fox under his chin, eyes slowly closing. Sound: soft sighs, TV low in the background, owner whispers "best boy".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Birthday walk

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
