Losing His Puppy Teeth

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

Teething week: the puppy chews his frozen toys, gets a gentle mouth check, and the owner finds a tiny baby tooth on his bed, then he naps on a cool floor.

TIMELINE

0-5s	Chewing frozen toy
5-10s	Gentle mouth check
10-15s	Found on his bed
15-20s	Treasure keeper
20-25s	Cool floor nap

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real 4-month-old male liver-and-tan German Shepherd puppy, growing lanky, chocolate-brown saddle, tan legs and face, brown nose, amber eyes, big ears starting to stand, wearing a light blue collar. 0-5s (Chewing frozen toy): Kitchen in the morning, daylight from the window, beige tile floor. The puppy lies on the cool tile chewing a frozen rubber teething toy, working it with his back teeth, eyes half closed, his big paws holding it steady. His tail thumps once on the floor. Sound: rubber squeaking, chewing, owner says "teething again". 5-10s (Gentle mouth check): Living room in the late morning, natural daylight, grey couch. The owner kneels beside the puppy and uses two gentle hands to lift his lip just a little, showing clean small front teeth. The puppy sits calmly and licks the owner's thumb. Sound: soft licking, owner says "let me see, good boy". 10-15s (Found on his bed): Bedroom in the afternoon, daylight through blinds, a round grey dog bed on the carpet. The owner's fingers pick up a tiny white puppy tooth from the fleece of the bed and hold it up close to the camera. The puppy sniffs the owner's hand. Sound: owner gasps "look what I found", puppy sniffing. 15-20s (Treasure keeper): Same bedroom, afternoon daylight. The owner's hand drops the tiny tooth into a small clear keepsake jar on the dresser. The puppy sits beside the dresser looking up, ears tall, tail sweeping the carpet. He sniffs toward the jar curiously, wondering if it is food, then sits back down. Sound: tiny clink in the jar, tail swishing, owner laughs "for the memory box". 20-25s (Cool floor nap): Hallway in the evening, ordinary ceiling light on, cool grey tile floor. The puppy sprawls on his belly on the tile with his chin on a soft rubber chew ring, eyes closing, tired from a day of teething. The owner's hand rests gently on his back. Sound: soft breathing, a long sigh, quiet house.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Chewing frozen toy

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real 4-month-old male liver-and-tan German Shepherd puppy, growing lanky, chocolate-brown saddle, tan legs and face, brown nose, amber eyes, big ears starting to stand, wearing a light blue collar. Kitchen in the morning, daylight from the window, beige tile floor. The puppy lies on the cool tile chewing a frozen rubber teething toy, working it with his back teeth, eyes half closed, his big paws holding it steady. His tail thumps once on the floor. Sound: rubber squeaking, chewing, owner says "teething again".

Clip 2 | 5-10s | Gentle mouth check

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
