Six Months Old Today

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

Half-birthday celebration: a bigger walk, a game of fetch, a dog-safe birthday pupcake, a family photo attempt and a tired evening on the rug.

TIMELINE

0-5s	Longer walk
5-10s	Fetch in the yard
10-15s	Pupcake
15-20s	Photo attempt
20-25s	Tired teenager

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real 6-month-old male liver-and-tan German Shepherd, a lanky teenager with long legs, chocolate-brown saddle, tan legs and face, brown nose, amber eyes, upright ears, wearing a light blue collar. 0-5s (Longer walk): Park trail on a crisp morning, soft natural daylight, gravel path through trees. The young dog walks on a light blue leash beside the owner, lanky and long-legged, ears fully up, trotting confidently and looking around at the trees. A jogger passes on the far side. Sound: gravel crunching, birds, owner says "six months, buddy". 5-10s (Fetch in the yard): Backyard at midday, overcast daylight, patchy lawn and a wooden fence. The owner's hand throws a soft rubber ball, and the young dog gallops after it on his long legs, grabs it a little clumsily and brings it back proudly. Sound: paws thudding on grass, owner says "good catch". 10-15s (Pupcake): Kitchen in the afternoon, daylight through the window, wooden floor. The owner's hand sets down a small dog-safe pupcake made of mashed sweet potato on a paper plate. The young dog sits, waits for the okay, then gently eats it. Sound: owner says "okay", happy munching. 15-20s (Photo attempt): Front porch steps in the late afternoon, natural daylight, potted plants. The young dog sits on the bottom step beside two family members' legs while the owner holds up the camera. He looks away at a passing bird, then back for one good shot. Sound: family laughing, someone says "look here", bird chirping. 20-25s (Tired teenager): Living room in the evening, warm lamp light, beige rug. The young dog stretches out full-length on the rug, legs long enough to reach the coffee table, and sighs. The owner's hand strokes his upright ears as he dozes. His paws twitch. Sound: deep sigh, quiet TV, owner whispers "half a year".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Longer walk

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real 6-month-old male liver-and-tan German Shepherd, a lanky teenager with long legs, chocolate-brown saddle, tan legs and face, brown nose, amber eyes, upright ears, wearing a light blue collar. Park trail on a crisp morning, soft natural daylight, gravel path through trees. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
