The Awkward Teenage Stage

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

The lanky teenager tripping over his own legs, misjudging the couch, ignoring a recall once, barking at a trash can, then flopping down like nothing happened.

TIMELINE

0-5s	Leggy trot
5-10s	Couch misjudge
10-15s	Selective hearing
15-20s	Scary trash can
20-25s	Flop and forget

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real 6-month-old male liver-and-tan German Shepherd, a lanky teenager with long legs, chocolate-brown saddle, tan legs and face, brown nose, amber eyes, upright ears, wearing a light blue collar. 0-5s (Leggy trot): Backyard in the morning, soft overcast daylight, patchy lawn. The young dog trots across the grass, his long legs a bit out of sync, back legs nearly catching his front ones. He stumbles once, recovers, and keeps going with his ears up. Sound: birds, uneven paw thuds, owner laughing "so many legs". 5-10s (Couch misjudge): Living room in the late morning, natural daylight, a low grey couch. The young dog tries to curl up on a small round dog bed he has outgrown, ending up with half his body and both back legs hanging over the edge onto the floor. Sound: bed squishing, owner says "you don't fit anymore". 10-15s (Selective hearing): Backyard at midday, bright daylight, wooden fence. The owner calls him, and the young dog looks over, then turns away to keep sniffing the fence line. He finally comes trotting back when the owner rattles a treat pouch. He sits at their feet. Sound: owner calls "come!", treat pouch rattling, paws on grass. 15-20s (Scary trash can): Driveway in the afternoon, natural daylight, a dark green wheelie trash bin by the garage. The young dog on his leash stares at the bin, gives two deep but cracking barks at it, then creeps forward and sniffs it cautiously. Sound: two awkward barks, owner says "it's been there all year". 20-25s (Flop and forget): Kitchen in the evening, ceiling light on, cool tile floor. The young dog walks in, turns once, and flops down with a thud on the tile, long legs sprawled everywhere, then rolls onto his back and looks up at the camera upside down. Sound: heavy thud, big sigh, owner laughing "teenagers".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Leggy trot

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real 6-month-old male liver-and-tan German Shepherd, a lanky teenager with long legs, chocolate-brown saddle, tan legs and face, brown nose, amber eyes, upright ears, wearing a light blue collar. Backyard in the morning, soft overcast daylight, patchy lawn. The young dog trots across the grass, his long legs a bit out of sync, back legs nearly catching his front ones. He stumbles once, recovers, and keeps going with his ears up. Sound: birds, uneven paw thuds, owner laughing "so many legs".

Clip 2 | 5-10s | Couch misjudge

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
