Puppy Coat to Grown-Up Coat

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

His fluffy puppy fuzz is shedding out and the sleek adult coat is coming in: brushing out tufts, comparing an old puppy photo, a backyard shake, and showing off the new shine.

TIMELINE

0-5s	Brushing session
5-10s	The fluff pile
10-15s	Old photo comparison
15-20s	Backyard shake
20-25s	New coat shine

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real 6-month-old male liver-and-tan German Shepherd, a lanky teenager with long legs, chocolate-brown saddle, tan legs and face, brown nose, amber eyes, upright ears, wearing a light blue collar. 0-5s (Brushing session): Back patio in the late morning, natural overcast daylight, grey pavers. The young dog lies on an old towel while the owner's hand gently runs a soft slicker brush down his back, lifting fluffy tufts of soft puppy fuzz. He relaxes with his eyes half closed. Sound: brush swishing, birds, owner says "so much fluff". 5-10s (The fluff pile): Same patio, overcast daylight. The owner's hand holds up a fluffy ball of soft brown puppy fur next to the young dog's head for size. He sniffs it curiously, then sneezes and looks away. A few loose wisps drift across the grey pavers in the breeze, and he watches them float off. Sound: a sneeze, owner laughing "that was all you". 10-15s (Old photo comparison): Living room in the afternoon, daylight through the window, grey couch. The owner's hand holds a small printed photo, its picture facing away from the camera, beside the young dog sitting on the rug. He leans in and sniffs the photo's edge. Sound: paper rustling, owner says "remember being this fluffy?". 15-20s (Backyard shake): Backyard in the afternoon, bright natural daylight, patchy lawn. The young dog stands and gives a big whole-body shake, a few loose wisps of puppy fuzz drifting off his back into the air, ears flapping, then trots off. He heads toward the fence. Sound: loud shake, collar jingling, owner says "there it goes". 20-25s (New coat shine): Front yard in late afternoon, soft natural daylight, short grass. The young dog stands beside the owner's legs, his new adult coat looking smoother and denser along the saddle. The owner's hand slides down his back, showing the sleek fur. Sound: breeze, owner says "so handsome now".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Brushing session

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real 6-month-old male liver-and-tan German Shepherd, a lanky teenager with long legs, chocolate-brown saddle, tan legs and face, brown nose, amber eyes, upright ears, wearing a light blue collar. Back patio in the late morning, natural overcast daylight, grey pavers. The young dog lies on an old towel while the owner's hand gently runs a soft slicker brush down his back, lifting fluffy tufts of soft puppy fuzz. He relaxes with his eyes half closed. Sound: brush swishing, birds, owner says "so much fluff".

Clip 2 | 5-10s | The fluff pile

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
