Why German Shepherd Puppies Are the Best

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

Five reasons he is the best puppy: the floppy ears, the giant paws, the wobbly runs, the loyal following, and the cuddles at the end of the day.

TIMELINE

0-5s	Floppy ears
5-10s	Giant paws
10-15s	Wobbly run
15-20s	Little follower
20-25s	End-of-day cuddle

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real 10-week-old male liver-and-tan German Shepherd puppy with a chocolate-brown saddle, warm tan legs and face, a brown nose, light amber eyes, fluffy soft puppy coat, oversized paws and floppy ears, wearing a small light blue collar. 0-5s (Floppy ears): Front porch on a bright morning, natural daylight, grey painted boards. The puppy sits facing the camera, his big floppy ears bouncing as he shakes his head, then tilts it to one side. The owner's hand gently lifts one ear and lets it flop back. Sound: birds, collar jingle, owner laughing "reason one". 5-10s (Giant paws): Living room in the late morning, daylight through a window, light wooden floor. The puppy lies on his belly, and the owner's open hand rests next to his oversized front paw, showing how huge it looks for his size. He licks the owner's fingers. Sound: soft licking, owner says "look at these paws". 10-15s (Wobbly run): Backyard at midday, overcast daylight, patchy grass and a wooden fence. The puppy runs toward the camera with a clumsy gallop, ears flapping and paws everywhere, and tumbles softly into the owner's waiting hands at the end. His tail wags hard. Sound: thudding little paws, owner says "reason three". 15-20s (Little follower): Kitchen and hallway in the afternoon, daylight from windows, beige tile. The owner walks from room to room, only their legs visible, and the puppy follows right behind their heels the whole way, sitting down each time they stop. He looks up at them. Sound: footsteps, little paws pattering, owner says "my shadow". 20-25s (End-of-day cuddle): Living room in the evening, warm lamp light, a beige couch. The owner sits on the floor against the couch, and the puppy climbs onto their lap, tucks his head under their arm and settles in with a deep sigh. Sound: soft sigh, owner whispers "and that's reason five".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Floppy ears

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real 10-week-old male liver-and-tan German Shepherd puppy with a chocolate-brown saddle, warm tan legs and face, a brown nose, light amber eyes, fluffy soft puppy coat, oversized paws and floppy ears, wearing a small light blue collar. Front porch on a bright morning, natural daylight, grey painted boards. The puppy sits facing the camera, his big floppy ears bouncing as he shakes his head, then tilts it to one side. The owner's hand gently lifts one ear and lets it flop back. Sound: birds, collar jingle, owner laughing "reason one".

Clip 2 | 5-10s | Giant paws

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
