Negative Prompt (sob prompt-er jonno)

dog moves before the command, dog does an action that was not commanded, voice and movement out of sync, visible trainer face or lip-sync, overlapping speech, extra legs, deformed paws, blurry face, cartoon, wrong breed, morphing, text, watermark, slow motion, video shorter or longer than 20 seconds

Prompt 1: Sit - Up - Wave (20 seconds)

A vertical 9:16 video, **exactly 20 seconds long**, realistic footage of an adorable fluffy long-haired German Shepherd puppy (about 4 months old, black-and-tan coat, big upright ears, black tactical harness with a small white text patch) doing obedience training on bright green artificial turf in an outdoor K9 training yard (green hedge wall, red training boxes, chain-link gate with a dog-training banner). Trainers wear black uniforms and are framed from the chest down only, so their faces and mouths are never visible. A small black duffel bag sits on the grass beside the puppy. Soft natural daylight, handheld smartphone camera at low dog-eye level, shallow depth of field, ultra-realistic fur, 4K, real-time speed (no slow motion), no text overlay.

Timeline with voice commands (0 - 20 s):
0.0s - The puppy stands beside the black bag, still, eyes on the trainer.
1.0s - Trainer says **"Sit!"** + palm swings up -> the puppy sits.
4.5s - Trainer says **"Up!"** + hand lifts high -> the puppy rises on its hind legs into a beg pose.
8.0s - Trainer says **"Wave!"** + trainer waves his hand -> still balancing, the puppy waves one front paw up and down twice.
11.5s - Trainer says **"Sit!"** + palm swings up -> the puppy drops back down into a sit.
14.5s - Trainer says **"Down!"** + flat palm pushes down -> the puppy lies down beside the bag.
17.5s - Trainer says **"Good boy!"** -> the puppy holds the down, tail wagging, until 20.0s.

SYNC RULES: one continuous video, exactly 20 seconds. Every command is a single short word spoken by the off-screen trainer in a firm, clear voice together with its hand signal, and the dog starts the matching movement within half a second after the word and finishes it in about one second. The dog never moves before a command and never does any action that was not commanded; between commands it holds still. Only one command at a time, no overlapping speech, no extra dialogue. Light background music stays quiet under the voice.

Prompt 2: Army Crawl (20 seconds)

A vertical 9:16 video, **exactly 20 seconds long**, realistic footage of an adorable fluffy long-haired German Shepherd puppy (about 4 months old, black-and-tan coat, big upright ears, black tactical harness with a small white text patch) doing obedience training on bright green artificial turf in an outdoor K9 training yard (green hedge wall, red training boxes, chain-link gate with a dog-training banner). Trainers wear black uniforms and are framed from the chest down only, so their faces and mouths are never visible. Soft natural daylight, handheld smartphone camera at low dog-eye level, shallow depth of field, ultra-realistic fur, 4K, real-time speed (no slow motion), no text overlay.

Timeline with voice commands (0 - 20 s):
0.0s - The puppy sits two meters in front of the crouching trainer.
1.0s - Trainer says **"Down!"** + flat palm pushes down -> the puppy lies down.
4.0s - Trainer says **"Crawl!"** + hand slides slowly along the turf -> the puppy creeps forward on its belly, elbows working, fluffy fur brushing the turf.
6.0s - Low close-up of the puppy crawling toward the camera, eyes on the trainer's hand, no new command.
11.0s - Trainer says **"Stop!"** + open palm toward the puppy -> the puppy freezes flat on the turf.
14.0s - Trainer says **"Sit!"** + palm swings up -> the puppy sits up.
17.0s - Trainer says **"Good boy!"** + hand pats its head -> the puppy holds the sit until 20.0s.

SYNC RULES: one continuous video, exactly 20 seconds. Every command is a single short word spoken by the off-screen trainer in a firm, clear voice together with its hand signal, and the dog starts the matching movement within half a second after the word and finishes it in about one second. The dog never moves before a command and never does any action that was not commanded; between commands it holds still. Only one command at a time, no overlapping speech, no extra dialogue. Light background music stays quiet under the voice.

Prompt 3: Jump Through the Hoop (20 seconds)

A vertical 9:16 video, **exactly 20 seconds long**, realistic footage of an adorable fluffy long-haired German Shepherd puppy (about 4 months old, black-and-tan coat, big upright ears, black tactical harness with a small white text patch) doing obedience training on bright green artificial turf in an outdoor K9 training yard (green hedge wall, red training boxes, chain-link gate with a dog-training banner). Trainers wear black uniforms and are framed from the chest down only, so their faces and mouths are never visible. The trainer holds a small white plastic hoop low, just above the turf. Soft natural daylight, handheld smartphone camera at low dog-eye level, shallow depth of field, ultra-realistic fur, 4K, real-time speed (no slow motion), no text overlay.

Timeline with voice commands (0 - 20 s):
0.0s - The puppy sits facing the hoop, still.
1.0s - Trainer says **"Hup!"** + hoop shakes once -> the puppy runs and jumps cleanly through the hoop.
4.5s - Trainer says **"Sit!"** + palm swings up -> the puppy lands, turns and sits.
8.0s - Trainer says **"Hup!"** + hoop shakes once -> the puppy jumps back through the hoop the other way.
11.5s - Trainer says **"Down!"** + flat palm pushes down -> the puppy lies down.
14.0s - Close-up of the puppy's happy panting face, still in the down, no command.
17.0s - Trainer says **"Good boy!"** -> the puppy stays down, tail wagging, until 20.0s.

SYNC RULES: one continuous video, exactly 20 seconds. Every command is a single short word spoken by the off-screen trainer in a firm, clear voice together with its hand signal, and the dog starts the matching movement within half a second after the word and finishes it in about one second. The dog never moves before a command and never does any action that was not commanded; between commands it holds still. Only one command at a time, no overlapping speech, no extra dialogue. Light background music stays quiet under the voice.

Prompt 4: Middle - Walk Together (20 seconds)

A vertical 9:16 video, **exactly 20 seconds long**, realistic footage of an adorable fluffy long-haired German Shepherd puppy (about 4 months old, black-and-tan coat, big upright ears, black tactical harness with a small white text patch) doing obedience training on bright green artificial turf in an outdoor K9 training yard (green hedge wall, red training boxes, chain-link gate with a dog-training banner). Trainers wear black uniforms and are framed from the chest down only, so their faces and mouths are never visible. Soft natural daylight, handheld smartphone camera at low dog-eye level, shallow depth of field, ultra-realistic fur, 4K, real-time speed (no slow motion), no text overlay.

Timeline with voice commands (0 - 20 s):
0.0s - The puppy sits one meter in front of the trainer, who stands with feet apart.
1.0s - Trainer says **"Middle!"** + hand points between his legs -> the puppy walks around and sits between the trainer's legs, facing forward.
5.0s - Trainer says **"Walk!"** + trainer steps forward -> the puppy walks between his legs, matching each step.
10.0s - Low front shot of the puppy peeking out between the black boots, still walking, no command.
13.0s - Trainer says **"Sit!"** + trainer stops -> the puppy sits between his feet.
16.0s - Trainer says **"Down!"** + flat palm pushes down -> the puppy lies down between his boots.
18.5s - Trainer says **"Good!"** -> the puppy holds the down until 20.0s.

SYNC RULES: one continuous video, exactly 20 seconds. Every command is a single short word spoken by the off-screen trainer in a firm, clear voice together with its hand signal, and the dog starts the matching movement within half a second after the word and finishes it in about one second. The dog never moves before a command and never does any action that was not commanded; between commands it holds still. Only one command at a time, no overlapping speech, no extra dialogue. Light background music stays quiet under the voice.

Prompt 5: Shy - Cover the Eyes (20 seconds)

A vertical 9:16 video, **exactly 20 seconds long**, realistic footage of an adorable fluffy long-haired German Shepherd puppy (about 4 months old, black-and-tan coat, big upright ears, black tactical harness with a small white text patch) doing obedience training on bright green artificial turf in an outdoor K9 training yard (green hedge wall, red training boxes, chain-link gate with a dog-training banner). Trainers wear black uniforms and are framed from the chest down only, so their faces and mouths are never visible. Soft natural daylight, handheld smartphone camera at low dog-eye level, shallow depth of field, ultra-realistic fur, 4K, real-time speed (no slow motion), no text overlay.

Timeline with voice commands (0 - 20 s):
0.0s - The puppy lies in a down facing the camera, still.
1.0s - Trainer says **"Shy!"** + hand covers the trainer's own face -> the puppy lifts one front paw and covers its eyes.
4.5s - Close-up of the puppy hiding its face under its fluffy paw, peeking out, no command.
9.0s - Trainer says **"Look!"** + finger snaps -> the puppy lowers the paw and looks up at the trainer.
12.0s - Trainer says **"Shy!"** + hand covers face -> the puppy covers its eyes again.
15.0s - Trainer says **"Sit!"** + palm swings up -> the puppy sits up.
17.5s - Trainer says **"Good boy!"** -> the puppy holds the sit with a head tilt until 20.0s.

SYNC RULES: one continuous video, exactly 20 seconds. Every command is a single short word spoken by the off-screen trainer in a firm, clear voice together with its hand signal, and the dog starts the matching movement within half a second after the word and finishes it in about one second. The dog never moves before a command and never does any action that was not commanded; between commands it holds still. Only one command at a time, no overlapping speech, no extra dialogue. Light background music stays quiet under the voice.

Prompt 6: Ring the Bell (20 seconds)

A vertical 9:16 video, **exactly 20 seconds long**, realistic footage of an adorable fluffy long-haired German Shepherd puppy (about 4 months old, black-and-tan coat, big upright ears, black tactical harness with a small white text patch) doing obedience training on bright green artificial turf in an outdoor K9 training yard (green hedge wall, red training boxes, chain-link gate with a dog-training banner). Trainers wear black uniforms and are framed from the chest down only, so their faces and mouths are never visible. A silver desk bell sits on the turf in front of the puppy. Soft natural daylight, handheld smartphone camera at low dog-eye level, shallow depth of field, ultra-realistic fur, 4K, real-time speed (no slow motion), no text overlay.

Timeline with voice commands (0 - 20 s):
0.0s - The puppy sits behind the bell, still.
1.0s - Trainer says **"Bell!"** + finger points at the bell -> the puppy taps the bell with its paw; the ding sounds exactly as the paw hits it.
4.5s - Trainer says **"Sit!"** + palm swings up -> the puppy sits back, paw off the bell.
8.0s - Trainer says **"Bell!"** + finger points at the bell -> the puppy taps it again; one ding exactly on the touch.
11.0s - Close-up of the puppy's proud face next to the bell, silent, no command.
15.0s - Trainer says **"Down!"** + flat palm pushes down -> the puppy lies down behind the bell.
18.0s - Trainer says **"Good boy!"** -> the puppy holds the down until 20.0s.

SYNC RULES: one continuous video, exactly 20 seconds. Every command is a single short word spoken by the off-screen trainer in a firm, clear voice together with its hand signal, and the dog starts the matching movement within half a second after the word and finishes it in about one second. The dog never moves before a command and never does any action that was not commanded; between commands it holds still. Only one command at a time, no overlapping speech, no extra dialogue. Light background music stays quiet under the voice.

Prompt 7: Treat on the Nose (20 seconds)

A vertical 9:16 video, **exactly 20 seconds long**, realistic footage of an adorable fluffy long-haired German Shepherd puppy (about 4 months old, black-and-tan coat, big upright ears, black tactical harness with a small white text patch) doing obedience training on bright green artificial turf in an outdoor K9 training yard (green hedge wall, red training boxes, chain-link gate with a dog-training banner). Trainers wear black uniforms and are framed from the chest down only, so their faces and mouths are never visible. Soft natural daylight, handheld smartphone camera at low dog-eye level, shallow depth of field, ultra-realistic fur, 4K, real-time speed (no slow motion), no text overlay.

Timeline with voice commands (0 - 20 s):
0.0s - The puppy sits facing the trainer, who places a small treat on top of its nose.
1.5s - Trainer says **"Wait!"** + finger raised -> the puppy freezes, the treat balanced on its nose, eyes crossed on the treat.
3.0s - Close-up of the treat balanced on the fluffy muzzle; the puppy holds completely still, no command.
11.0s - Wide shot: still balancing, ears twitching.
14.0s - Trainer says **"Okay!"** + hand opens -> the puppy flips the treat into the air and catches it in its mouth.
17.0s - Trainer says **"Good boy!"** -> the puppy chews happily and stays sitting until 20.0s.

SYNC RULES: one continuous video, exactly 20 seconds. Every command is a single short word spoken by the off-screen trainer in a firm, clear voice together with its hand signal, and the dog starts the matching movement within half a second after the word and finishes it in about one second. The dog never moves before a command and never does any action that was not commanded; between commands it holds still. Only one command at a time, no overlapping speech, no extra dialogue. Light background music stays quiet under the voice.

Prompt 8: Jump Into My Arms (20 seconds)

A vertical 9:16 video, **exactly 20 seconds long**, realistic footage of an adorable fluffy long-haired German Shepherd puppy (about 4 months old, black-and-tan coat, big upright ears, black tactical harness with a small white text patch) doing obedience training on bright green artificial turf in an outdoor K9 training yard (green hedge wall, red training boxes, chain-link gate with a dog-training banner). Trainers wear black uniforms and are framed from the chest down only, so their faces and mouths are never visible. Soft natural daylight, handheld smartphone camera at low dog-eye level, shallow depth of field, ultra-realistic fur, 4K, real-time speed (no slow motion), no text overlay.

Timeline with voice commands (0 - 20 s):
0.0s - The puppy sits two meters away; the trainer crouches with open arms.
1.0s - Trainer says **"Wait!"** + open palm toward the puppy -> the puppy holds the sit, tail wagging.
5.0s - Close-up of the puppy's excited face, still sitting, no command.
9.0s - Trainer says **"Hup!"** + trainer pats his chest -> the puppy runs and leaps into the trainer's arms; he catches it against his chest.
13.0s - The puppy licks the trainer's chin while being held (trainer's face stays out of frame).
16.0s - Trainer says **"Down!"** + trainer sets it on the turf -> the puppy lies down on the turf.
18.5s - Trainer says **"Good!"** -> the puppy holds the down until 20.0s.

SYNC RULES: one continuous video, exactly 20 seconds. Every command is a single short word spoken by the off-screen trainer in a firm, clear voice together with its hand signal, and the dog starts the matching movement within half a second after the word and finishes it in about one second. The dog never moves before a command and never does any action that was not commanded; between commands it holds still. Only one command at a time, no overlapping speech, no extra dialogue. Light background music stays quiet under the voice.

Prompt 9: Tug - Out (20 seconds)

A vertical 9:16 video, **exactly 20 seconds long**, realistic footage of an adorable fluffy long-haired German Shepherd puppy (about 4 months old, black-and-tan coat, big upright ears, black tactical harness with a small white text patch) doing obedience training on bright green artificial turf in an outdoor K9 training yard (green hedge wall, red training boxes, chain-link gate with a dog-training banner). Trainers wear black uniforms and are framed from the chest down only, so their faces and mouths are never visible. The trainer holds a short brown jute tug toy. Soft natural daylight, handheld smartphone camera at low dog-eye level, shallow depth of field, ultra-realistic fur, 4K, real-time speed (no slow motion), no text overlay.

Timeline with voice commands (0 - 20 s):
0.0s - The puppy sits facing the tug toy, still, eyes on it.
1.0s - Trainer says **"Take!"** + toy wiggles low -> the puppy grabs the tug toy and pulls backward, growling playfully.
3.0s - Close-up of the puppy tugging hard, paws braced, no new command.
8.0s - Trainer says **"Out!"** + trainer holds the toy still -> the puppy lets go of the toy instantly.
11.0s - Trainer says **"Sit!"** + palm swings up -> the puppy sits, staring at the toy.
14.0s - Trainer says **"Take!"** + toy wiggles low -> the puppy grabs and tugs again.
17.0s - Trainer says **"Out!"** + trainer holds the toy still -> the puppy releases and sits until 20.0s.

SYNC RULES: one continuous video, exactly 20 seconds. Every command is a single short word spoken by the off-screen trainer in a firm, clear voice together with its hand signal, and the dog starts the matching movement within half a second after the word and finishes it in about one second. The dog never moves before a command and never does any action that was not commanded; between commands it holds still. Only one command at a time, no overlapping speech, no extra dialogue. Light background music stays quiet under the voice.

Prompt 10: Mother & Puppy Together (20 seconds)

A vertical 9:16 video, **exactly 20 seconds long**, realistic footage of a strong adult female German Shepherd (black-and-tan saddle coat, upright ears, black tactical harness) and her fluffy long-haired German Shepherd puppy (about 4 months old, matching black tactical harness) doing obedience training on bright green artificial turf in an outdoor K9 training yard (green hedge wall, red training boxes, chain-link gate with a dog-training banner). Trainers wear black uniforms and are framed from the chest down only, so their faces and mouths are never visible. The adult dog and the puppy sit side by side. Soft natural daylight, handheld smartphone camera at low dog-eye level, shallow depth of field, ultra-realistic fur, 4K, real-time speed (no slow motion), no text overlay.

Timeline with voice commands (0 - 20 s):
0.0s - Mother and puppy sit side by side facing the trainer, still.
1.0s - Trainer says **"Down!"** + flat palm pushes down -> both lie down at the same moment.
4.5s - Trainer says **"Sit!"** + palm swings up -> both sit up together.
8.0s - Close-up: the puppy looks up at its mother, both silent, no command.
11.0s - Trainer says **"Paw!"** + trainer holds out two hands -> mother and puppy each place a paw in the trainer's hands at the same time.
14.5s - Trainer says **"Down!"** + flat palm pushes down -> both drop into a down.
17.5s - Trainer says **"Good!"** -> both hold the down, the puppy leaning on its mother, until 20.0s.

SYNC RULES: one continuous video, exactly 20 seconds. Every command is a single short word spoken by the off-screen trainer in a firm, clear voice together with its hand signal, and the dog starts the matching movement within half a second after the word and finishes it in about one second. The dog never moves before a command and never does any action that was not commanded; between commands it holds still. Only one command at a time, no overlapping speech, no extra dialogue. Light background music stays quiet under the voice.
